PORTFOLIO

ReiseSchatz

<https://pportillo89.github.io/ReiseSchatz/index.html>

You can view the project I created in the web design course with responsive web design via the link.

The project's objective was to build a website using the components learned during the lessons. In my case, I chose to create a personal travel blog.

FindOMat

<https://www.figma.com/proto/P9eFcHYdSLwRR372NBNtcB/Prototype-mit-Interactions?node-id=3-5&p=f&t=6G9s5dOWF1ftXOw5-0&scaling=scale-down&content-scaling=fixed&page-id=0%3A1&star-%20ting-point-node-id=1%3A4&show-prototype-sidebar=1>

You can view my final project from the "UX/UI Design „ course via the link, where we collaborated as a group of three from ideation to app design.

The project 's goal was to develop a mobile app for locating vending machines near the user 's location. I was responsible for the technical design of the app and the implementation of the workflow and interactions between the different screens.
